the following volume of traffic was handled by trucks in the GDR in November 1994: in volume of

1.	Number of tons carried	14,425,000
2.	Number of ton/km covered	281,100,000

Comment. Compared to the last period between 1 July and 30 September 1954, the traffic performance which increased by 4 percent, was probably due to improved fuel supply and to an effort to fulfill the prescribed yearly quota.
